Profile Summary

Motivated and enthusiastic Computer Applications graduate currently pursuing Master of Computer Application, with a solid foundation in data analytics, web development, and database management. Skilled in Python, SQL, Tableau, HTML, CSS, JavaScript, PHP, and MySQL, with strong problem-solving and analytical abilities. Seeking an entry-level Data Analyst or Web Developer role where I can apply technical skills, learn emerging technologies, and contribute to organizational success. Passionate about continuous learning and eager to take on challenges in a dynamic work environment.

Technical Skills

- **Programming Languages:** Python, Java
- **Web Technologies:** HTML5, CSS3, JavaScript
- **Database Management:** MySQL, PostgreSQL
- **Core Concepts:** OOPS, CRUD operations.
- **Tools & Platforms:** Git & GitHub, Excel (data analysis, pivot charts), Blender, Tableau, Power BI

Projects

Conversion of sign language to text and speech – Deep learning, Python – [GitHub link](#)

- Built a deep learning-based model to recognize sign language gestures using Python.
- Implemented computer vision techniques for hand gesture detection and classification.
- Converted recognized gestures into real-time text and speech output to assist communication for hearing-impaired individuals.
- Gained expertise in AI, machine learning model training, and integrating speech synthesis.

Gaming Landing Page – HTML, CSS, JavaScript – [GitHub link](#)

- Designed an animated, stylish homepage for a gaming site
- Featured tournament cards, login/register modal, and smooth scroll
- Strengthened UI/UX design thinking

E-Commerce Website – HTML, CSS, JavaScript, PHP, MySQL – [GitHub link](#)

- Developed a full-stack e-commerce platform with product listing, search functionality, and shopping cart system.
- Frontend: HTML, CSS, JavaScript for responsive and interactive UI.
- Backend: PHP with MySQL for handling authentication, product management, and order storage.
- Implemented form validation, dynamic content updates, and database connectivity.
- Gained practical experience in end-to-end web development and secure coding practices.

Internship Experience

Full Stack Developer Intern – Skifter Technologies

(June2025-Sep2025)

- Contributed to real-world web app development
- Worked on front-end UIs and backend logic
- Used Git for version control and collaboration

Customer Engagement Intern – SRI MOTORS (Yamaha Dealers)

(May2023-June2023)

- Assisted with client queries and service coordination
- Managed product inventory records and customer feedback
- Built teamwork, communication, and organizational skills

Academic Details

Sathyabama Institute of Science and Technology

Master of Computer Application (MCA)

2024-Present

Guru Nanak College of Arts and Science

Bachelor of Computer Application (BCA)

2021-2024

Sri Mahaveer Jain Higher Secondary School

SSLC (Class X) – HSC (Class XII)

2019-2021

Certifications

- Programming Essentials in Python – **ICT Academy**
- Gen ai powered data analytics job simulation – **Tata**
- Java with Selenium Workshop – **Test Leaf**
- Introduction to Cybersecurity – **Cisco**
- AWS Cloud Practitioner Essentials – **NASSCOM & AWS**
- Introduction to Artificial Intelligence – **Infosys Springboard**
- Machine Learning with Python – **Infosys Springboard**
- iCAT Aptitude Internship Certificate – **iCAT**
- Data Analytics Job Simulation – **Deloitte**
- Cloud Computing Fundamentals – **IBM**
- Python for Data science – **Udemy**
